ENVIRONMENTAL PRODUCT DECLARATION

in accordance with ISO 14025, ISO 21930 and EN 15804

Owner of the declaration:	Jotun A/S
Program operator:	The Norwegian EPD Foundation
Publisher:	The Norwegian EPD Foundation
Declaration number:	NEPD-2538-1279-EN
Registration number:	NEPD-2538-1279-EN
ECO Platform reference number:	-
Issue date:	16.11.2020
Valid to:	16.11.2025

Jotafloor PU Crete, Jotun Paints Co. L.L.C. (Oman)

Jotun A/S

www.epd-norge.no

General information

Product:

Jotafloor PU Crete, Jotun Paints Co. L.L.C. (Oman)

Owner of the declaration:

Jotun A/S
Contact person: Anne Lill Gade
Phone: +47 33 45 70 00
e-mail: anne.lill.gade@jotun.no

Program operator:

The Norwegian EPD Foundation
Pb. 5250 Majorstuen, 0303 Oslo
Phone: +47 23 08 80 00
e-mail: post@epd-norge.no

Manufacturer:

Jotun A/S

Declaration number:

NEPD-2538-1279-EN

Place of production:

Jotun Paints Co. L.L.C. (Oman)
Rusayl Ind. Estate, Road (No.6 - extend road) 111, Muscat
Oman

ECO Platform reference number:

Management system:

ISO 9001:2008 Certificate nr: 0044915-00, ISO 14001:2004 Certificate nr 0044914-00, ISO 45001: 2018 Certificate nr: 0098139

This declaration is based on Product Category Rules:

CEN Standard EN 15804:2012+A1:2013 serves as core PCR.

IBU PCR Part B for coatings with organic binders

Organisation no:

923 248 579

Statement of liability:

The owner of the declaration shall be liable for the underlying information and evidence. EPD Norway shall not be liable with respect to manufacturer information, life cycle assessment data and evidences.

Issue date: 16.11.2020

Valid to: 16.11.2025

Declared unit:

1 kg Jotafloor PU Crete, Jotun Paints Co. L.L.C. (Oman)

Year of study:

2020

Declared unit with option:

A1,A2,A3

Comparability:

EPD of construction products may not be comparable if they not comply with EN 15804 and seen in a building context.

Functional unit:

Author of the Life Cycle Assessment:

The declaration is developed using eEPD v4.0 from LCA.no
Approval:
Company specific data are:

Collected/registered by:	Cleo Alves Otterbech
Internal verification by:	Ken Gudvangen

Verification:

Independent verification of data, other environmental information and the declaration according to ISO14025:2010, § 8.1.3 and § 8.1.4

Product

Product description:

Jotafloor PU Crete is seamless, self smoothing, solvent free polyurethane based hybrid antimicrobial flooring system. It has high impact resistance, sustains abrasion and resistant to many chemicals being used in day to day life.
The declared product is designed for use in areas like food & beverage factories, kitchens, bakeries & confectioneries, food processing plants, pharmaceuticals & textile industries, laboratories & hospitals and chemical plants.

Product specification

For information on Green Building Standard credits, see "Additional Information" on page 4.

The material composition of the declared mixed product is given below:

Materials	%
Filler	50 - 75 %
Binder	10 - 25 %
Additive	3 - 5 %
Water	3 - 5 %
Solvent	0.3 - 1 %
Pigment	0.1 - 0.3 %
Biocide	<0.1%

Technical data:

Product mixing ratio (by volume):
Jotafloor PU Crete Comp A: 2.49 part(s)
Jotafloor PU Crete Comp B: 2.41 part(s)
Jotafloor PU Crete Comp C: 5.3 part(s)
Jotafloor PU Crete Comp D: 0.43 part(s)

Density: 1.935 kg/l
Solids by volume: 98 ± 2 volume%

Film thickness per coat
Dry film thickness: 4000 - 6000 µm
Wet film thickness: 4000 - 6000 µm
Theoretical spreading rate: 0.25 - 0.16 m^2/l

The most representative and worst case formulation produced at the manufacturing site is chosen for this EPD. For products with a selection of colours, this will be the formulation with the highest content of titanium dioxide.

The product packaging is composed by a plastic container 3 L for component A and B, a paper bag with PE film 6 L for component C and a plastic pail 3 L for component D, including secondary packaging such as pallets and plastic wrapping.

For safety, health and environmental conditions, see the Safety Data Sheet for the declared product on www.jotun.com.

For information on technical data, application and use of the product, see the Technical Data Sheet for the declared product on www.jotun.com.

Market:

Global. Transport to market is not included in this EPD.

Reference service life, product

The reference service life of the product is highly dependent on the conditions of use.

Estimated service life, object

The coated object is not declared.

LCA: Calculation rules

Declared unit:

1 kg Jotafloor PU Crete, Jotun Paints Co. L.L.C. (Oman)

Cut-off criteria:

All major raw materials and essential energy is included. The production process for raw materials and energy flows with very small amounts (less than 0.1 % dry matter) are not included. In total, more than 99% of the material input is included. These cut-off criteria do not apply for non-energy related emissions (such as wastes, hazardous materials and substances).

Allocation:

The allocation is made in accordance with the provisions of EN 15804. Incoming energy, water and waste production in-house is primarily allocated equally among all products through mass allocation. Specific allocation was performed for certain waste flows according to information provided by the site manager. VOC emissions have been allocated entirely to the production of solvent based paints. Effects of primary production of recycled materials is allocated to the main product in which the material was used. The recycling process and transportation of the material is allocated to this analysis.

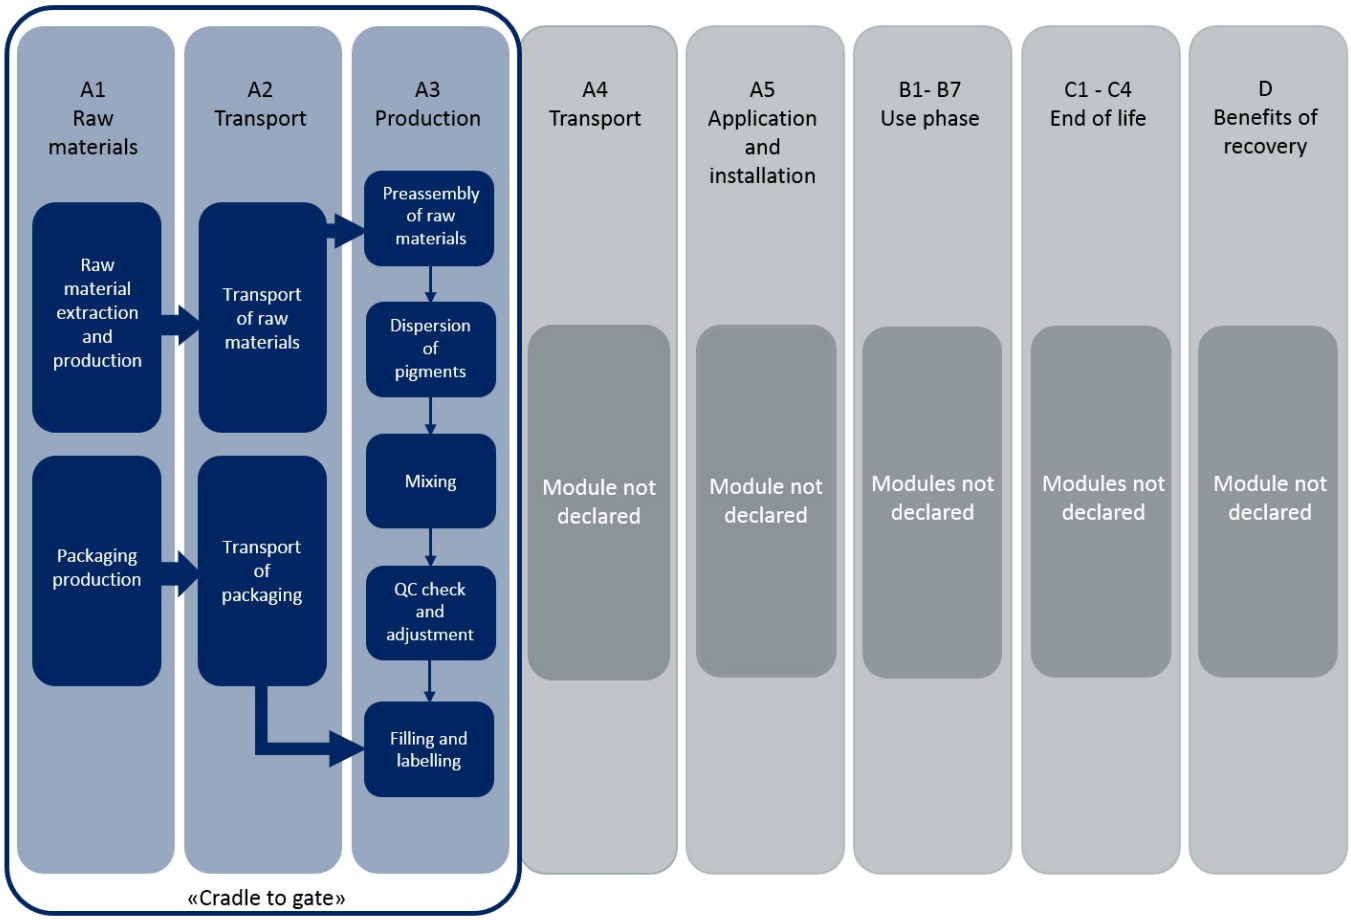
Data quality:

The CEPE database is used as basis for the raw material composition. Specific data for the product composition and raw material amounts has been provided by the manufacturer and represents the production of the declared product. Production site data was collected in 2015. Representative data from ecoinvent v3.2 was used for other processes. The data quality for the material input in A1 is presented in tabular form.

Materials	Source	Data quality	Year
Packaging	Modified ecoinvent 3.6	Database	2019
Jotafloor PU Crete Comp A, Jotun Paints Oman	Owner of EPD	Database	2020
Jotafloor PU Crete Comp B, Jotun Paints Oman	Owner of EPD	Database	2020
Jotafloor PU Crete Comp C, Jotun Paints Oman	Owner of EPD	Database	2020
Jotafloor PU Crete Comp D, Jotun Paints Oman	Owner of EPD	Database	2020

System boundary:

The flowchart in the figure below illustrates the system boundaries for the analysis, in accordance with the modular principle of EN 15804. The analysis is a cradle-to-gate (A1 - A3) study.



Additional information:

The declared product contributes to Green Building Standard credits by meeting the following specific requirements:

LEED®v4 (2013)/LEED®v4.1 (2019)
EQ credit: Low-emitting materials
- VOC content for Floor Coatings (100 g/L) (CARB(SCM)2007) and emission less or equal to 0.5 mg/m3 (CDPH method 1.2).
MR credit: Building product disclosure and optimization
- Material Ingredients, Option 2: Material Ingredient Optimization, International Alternative Compliance Path - REACH optimization: Fully inventoried chemical ingredients to 100 ppm and not containing substances on the REACH Authorization list – Annex XIV, the Restriction list – Annex XVII and the SVHC candidate list.
- Environmental Product Declarations. Product-specific Type III EPD (ISO 14025;21930, EN 15804) for Jotun Paints Co. L.L.C. (Oman).

BREEAM International (2016)
- Hea 02: VOC exemplary emission CDPH method 1.2 (2017)) and the VOC content for Two-pack reactive performance coatings for specific end use such as floors (80g/L).
- Mat 01: Product-specific Type III EPD (ISO 14025;21930, EN 15804) for Jotun Paints Co. L.L.C. (Oman).

BREEAM International (2013)
- Hea 02: VOC content for Two-pack performance coatings solvent based, for specific end use such as floors (EU Directive 2004/42/CE).

Additional certificates and approvals may be available on request.

LCA: Scenarios and additional technical information

The following information describe the scenarios in the different modules of the EPD.

This is a cradle to gate (A1-A3) EPD with no declared modules after the factory gate. Transport from place of production to user (A4) has to be calculated by the user.

Transport from production place to user (A4)

Type	Capacity utilisation (incl. return) %	Type of vehicle	Distance km	Fuel/Energy consumption	Unit	Value (l/t)
Truck					l/tkm	
Railway					l/tkm

*INA Indicator Not Assessed

Additional requirements

Greenhouse gas emissions from the use of electricity in the manufacturing phase

National production mix from import, low voltage (production of transmission lines, in addition to direct emissions and losses in grid) of applied electricity for the manufacturing process (A3).

Electricity mix	Data source	Amount	Unit
Electricity, Oman (kWh)	ecoinvent 3.3 Alloc Rec	1113,82	g CO2-ekv/kWh

Dangerous substances

The product contains no substances given by the REACH Candidate list.

Indoor environment

The declared product is emission tested by RISE Research Institutes of Sweden/SP Technical Research Institute of Sweden or Eurofins in accordance with California Department of Public Health (CDPH) Standard Method v1.2–2017.
