

Ny digital standard for kommunikasjon av miljøprestasjoner; Hva betyr ISO 22057?

Strukturerte og maskinlesbare miljødata baserte på produktdataamaler PDT

Bærekraftig byggenæring

Mål

Sirkulær økonomi
EU Green Deal

Middel

Digitalisering

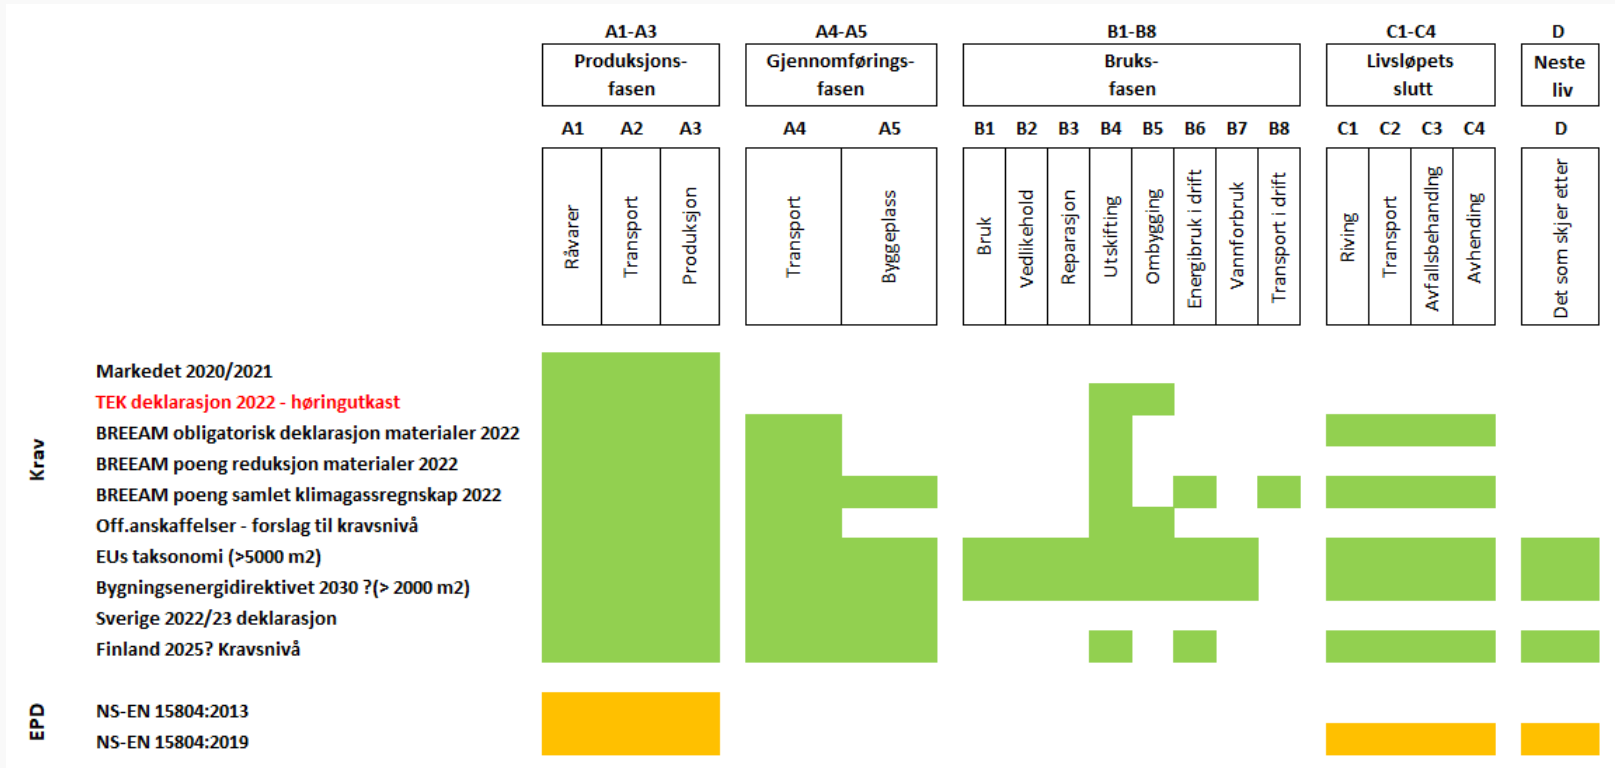

(Forventede) klimakrav på byggnivå

- TEK
 - Obligatorisk med klimaregnskap (ved ferdigstillelse)
 - A1-A3 og B4/B5 (svært mange høringsvar ba om mer)
 - Installasjoner blir trolig ikke inkludert
- BREEAM NOR
 - Obligatorisk med klimagassberegning i tidligfase
 - Mer ambisiøs i omfang, både mht livsløp og bygningsdeler, enn TEK (= taksonomien)
 - Poeng for reduserte utslipp – tilsvarende omfang som TEK?
 - Installasjoner blir trolig ikke inkludert (men poeng for EPD for installasjoner)
- DFØ (Offentlige anskaffelser)
 - Ulike kravsnivå – tilsvarende omfang som TEK?
- Svanemerking
 - Obligatorisk med klimagassberegning (tilsvarende TEK)
- Andre programmer/miljøambisiøse prosjekter
 - Futurebuilt, Statsbygg...

Hvilke livsløpsfaser er inkludert i klimakravene fra ulike sentrale aktører?

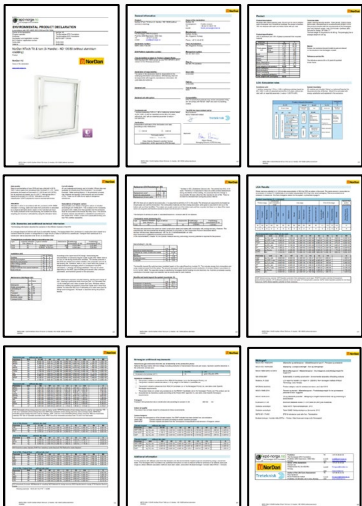

Utfordring:

Dagens EPDer er ikke tilpasset digitalisering og maskinlesbarhet

Additional information

For the products with different sizes from the declared unit, the environmental impacts must be converted by using a conversion factor. The Norwegian EPD Foundation has published instructions on how to interpret EPDs for windows on its website (www.epd-norge.no) where different calculation methods have been stated. (Document: Bruksanvisning i vinddørr EPD'er - Vinduser)

Dokumentasjonsspagat for byggevareprodusenter

- Miljødata er bare et område
- Andre
 - Tekniske egenskaper
 - Logistikk
 - Sirkularitet
 - Handel
 - FDV
 - ++

Mange ulike klassifikasjoner og datastrukturer medfører kompleksitet og høye kostnader

Brukere av egenskaper

Verktøy/systemer for å håndtere vareinformasjon

Datastrukturer og klassifikasjon

Spesifikasjon av relevante egenskaper

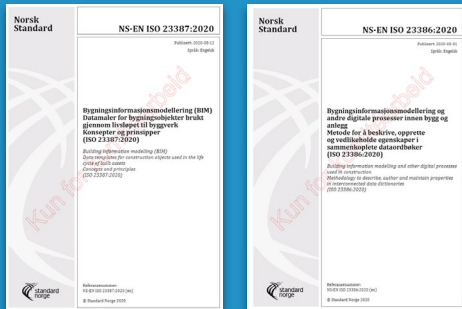

The image features a dense, intricate network of glowing blue lines and nodes, resembling a data structure or a complex network. This network is superimposed over a blurred city skyline at night, with various lights and building silhouettes visible in the background. The overall aesthetic is futuristic and technological.

Vi må ha en
felles datastruktur

PDT

hva er det?

Basert på standarder

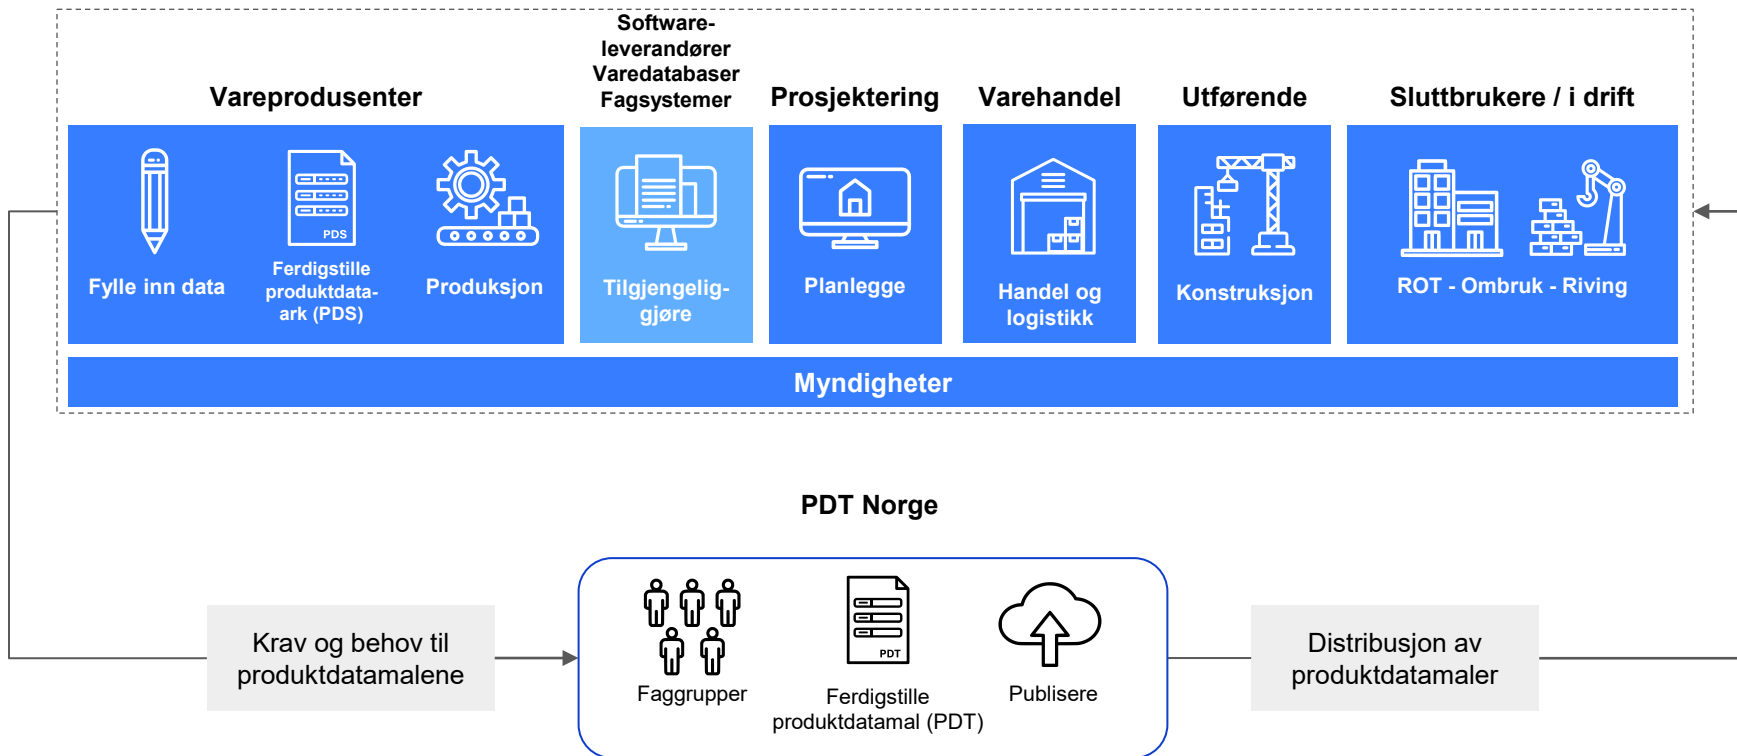

PDT Norge

En PDT (Product Data Template/Produktdatamal) er en elektronisk, ikke utfylt datastruktur over relevante egenskaper for en produktgruppe.

PDT'er gjør det mulig å oversette og distribuere entydig definert produktdokumentasjon på tvers av systemer, programvare og landegrenser, slik at aktører i byggenæringen kan utveksle produktinformasjon gjennom alle faser av livsløpet til et byggverk.

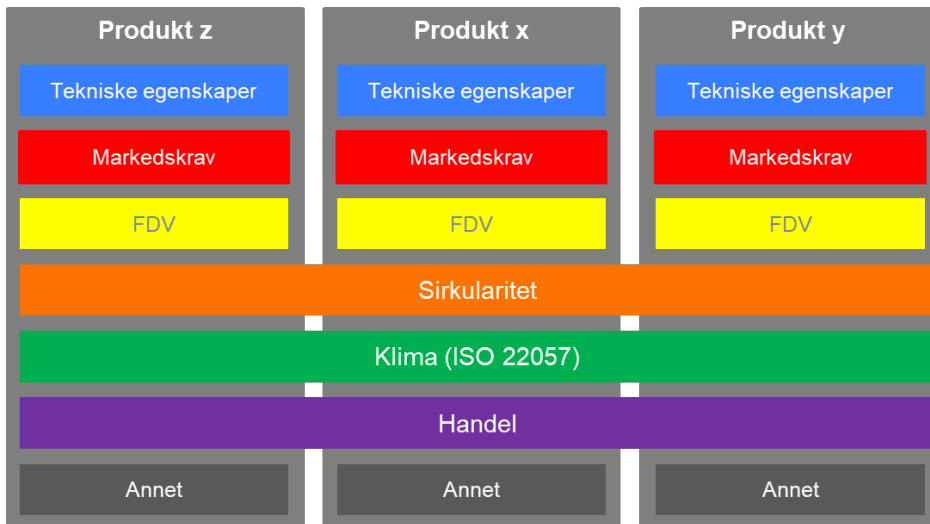

PDT: Product Data Template (mal)
PDS: Produkt Data Sheet (utfylt mal)

I fremtiden vil spesifikasjon av relevante egenskaper defineres av faggrupper basert på standarder, som sikrer lik datastruktur og klassifikasjon gjennom hele verdikjeden

Hvilke egenskaper skal være med i en PDT?

Produktspesifikke og “generiske” egenskapssett

ISO EN 22057

Warning for VDs and CDs

This document is not an ISO International Standard. It is distributed for review and comment. It is subject to change without notice and may not be referred to as an International Standard.

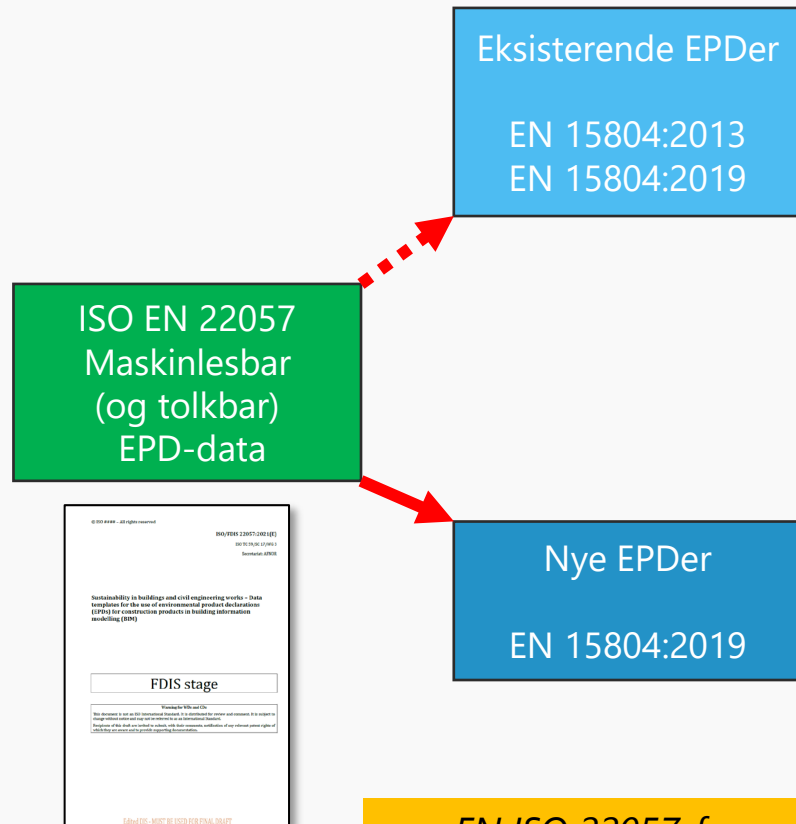

Requests of this draft are limited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

Edited DIS - MUST BE USED FOR FINAL DRAFT

Name	Description	GUID	Unit
bulk density	mass of a quantity of a bulk solid divided by its total volume	0a75NVLKtBtEDtQ3FKtM	kg/m ³
transport type	mode of transport	3_mgcqzUF9v7N98CPkLT	unitless
capacity utilisation	a measure (in percent) of the amount a given vehicle type is loaded compared to its full load capacity in volume or weight	2M-jp6Q7t6P9kQuuSanP	percent
fuel consumption	Quantity of fuel consumed	1ET2TBv4dLvl8TmUdJQJTD	liters per 100 kilometre
fuel type	Type of fuel consumed	2qJ7LJ6t41v9vVjRfub	unitless
power consumption	quantity of electricity consumed	3V7mCvXbZcuX8MP34EE-MP	kilowatt per 100
transport distance	distance that is needed to transport any goods or personnel from its startingpoint to final destination	0M-M9HqH44qgH4BDQ75v	kilometre
vehicle type	type of vehicle within a transport type	3G8C78P7A7a6pI6gCv3k	unitless
volume capacity utilisation factor	Factor showing the way in which the load of products may be limited by volume rather than mass	1000vXtT8ka2KtA_eVC8	percent

Pr ISO EN 22057 = PDT for EPD

Maskinlesbar EPD-data

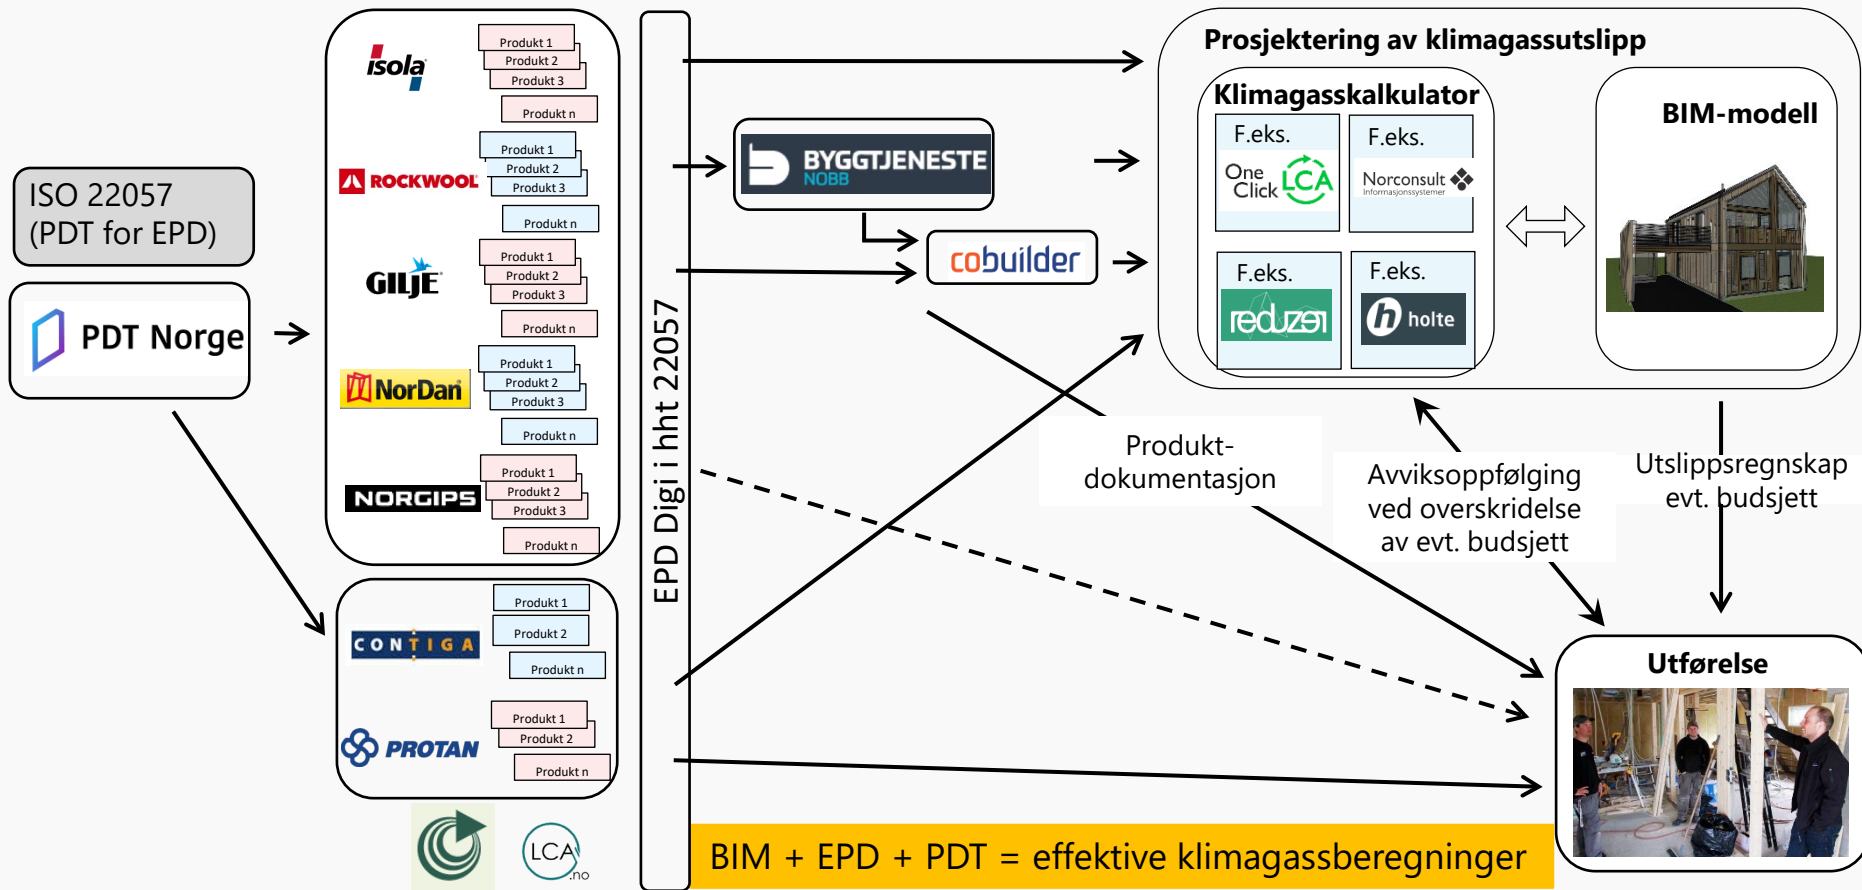

- **NOBB:** Prosjekt for å manuelt legge inn EPD-data på varenummer

Trebaserte produkter «trøbler» litt til siden karbonlagring i er håndtert på ulikt vis i EPDer i 2013-versjonen

- **PDT-Norge:** Har en maskinlesbar PDT for EPD = EN ISO 22057
- **Lca.no:** Prosjekt i regi av Byggevareindustrien for å få EPD-generatorene på et EN ISO 22057-format
- **EPD-Norge:** Tilpasser sitt system til EN ISO 22057-formatet (og Byggevareindustriens prosjekt)

EN ISO 22057-formatet kommer i tillegg til EN 15804

Klimagassregnskap basert på maskinlesbar EPD-informasjon
